

Postponed as a precaution, the Global Industrie Exhibition will finally be held from the 23rd to the 26th of June 2020

Paris, 10 March 2020 – The next edition of the Global Industrie Exhibition, the biggest gathering of industry players in France, initially scheduled for the 31st of March to the 3rd of April, has been postponed due to the concern raised by the spread of the coronavirus Covid-19.

Although an option had been envisaged at Le Bourget, **Global Industrie 2020** will in the end be held at the **Paris Nord Villepinte Exhibition Centre** (in halls 1, 2, 3, 4 and 5), **from the 23rd to the 26th of June 2020**.

To avoid endangering the health of its 2,500 exhibitors, its partners and the more than 45,000 visitors, and to allow the event to take place under optimum conditions, GL Events, the organiser of the exhibition, has opted to postpone the event to a later date.

“The fact that Global Industrie is staying at Villepinte is excellent news which is welcomed both by our exhibitors and by our visitors. The location is both ideally suited to an Exhibition of the scale of Global Industrie and a guarantee of genuine logistic and technical comfort for our exhibitors”, stated Sébastien Gillet, the exhibition’s director. “More than ever, we are convinced that the whole of our community will be there from the 23rd to the 26th of June to present our country’s industrial excellence. The exhibition will take place in parallel with Transport & Logistics Innovation Week (hall 6), one tremendous opportunity for all industry people present throughout our event”.

“We wish once again to thank our customers for their patience and their understanding, together with the ministerial authorities who are assisting us during this difficult period and who have reasserted their support for Global Industrie”, he concluded.
